### REMARKS

The Office Action mailed October 4, 2007 objected to previously submitted amendments submitted September 10, 2007 to Figures 3c, 3d, and 3e as well as related paragraphs 0025, 0026 and 0027 35 U.S.C. 132(a). In the event these figures and paragraphs were entered, the Applicant has submitted paragraphs 0025, 0026 and 0027 as originally filed and has indicated the changes accordingly. Likewise, Figures 3c, 3d and 3e have been submitted as originally filed. The Applicant respectfully submits that these paragraphs and figures were originally modified only to clarify certain aspects of the present invention and were not necessary to enable one or more aspects of the present invention. It is also respectfully submitted that Applicant has returned these Figures and paragraphs to their original state as filed to further prosecution on the merits however traverses the Examiner's contention that new matter would have otherwise been added if they were not entered as originally filed. Nonetheless, the Applicant respectfully submits this request to enter the aforementioned portions of the specification and figures as originally filed and indicated in the instant action.

Regarding other amendments submitted September 10, 2006, Applicant respectfully submits Figure 4, Figure 5, paragraphs 0028, 0030, 0033 and 0034 as previously amended and requests that these are entered as provided. No new matter has been added by these amendments.

In addition, the Applicant has submitted a revised paragraph 0018 to address informalities in the numbering of items and revised claim 22 to overcome a rejection under 35 USC 101.

Applicant has made a diligent effort to clarify aspects of the present invention and have added no new matter. In addition, the Applicant also submits that application and figures as originally filed would enable one skilled in the art to practice one or more aspects of the invention. Accordingly, the Applicant believes the claims are in condition for allowance. However, should there remain unresolved issues that require adverse action, it is respectfully requested that the Examiner telephone Leland Wiesner, Applicant's Attorney at (650) 853-1113 so that such issues may be resolved as expeditiously as possible.

For these reasons, and in view of the above amendments, this application is now considered to be in condition for allowance and such action is earnestly solicited.

1/04/2008  
Date

Respectfully Submitted,

Leland Wiesner  
Attorney/Agent for Applicant  
Reg. No. 39424
